Becker Law Office takes great pride in helping the injured people of Kentucky, Tennessee and Indiana. We strive to obtain the money our clients deserve and the law entitles them to receive. The firm formed in Louisville, KY in 1985 when founder Gary Becker (now retired) and his wife moved from a small town in Southern Indiana. Gary decided to focus Becker Law Office exclusively on plaintiffs' personal injury cases. His passion for helping people remains with the firm today. Our attorneys know how a devastating personal injury can impact one's life. When managing partner, Kevin Renfro was just a young boy, his father lost a finger in an industrial accident. His father suffered excruciating physical pain while his mother struggled to provide for the family of six.
