This Black-owned construction company has the unique ability to guide your project from the initial stages of planning through construction completion. BTH Construction Delivery is a full-service, black-owned construction company and design firm that creates a personalized approach to construction and design. Be it master planning, new construction, renovation, or an addition, BTH Construction creates solutions with cost control, efficient scheduling, and high-quality results for both residential and commercial clients. Bridget Harris founded her company working as a sole proprietor in 2010. In the fall of 2016, she relaunched as BTH Construction Delivery, offering a wider scope of design and construction services, for residential and commercial projects. BTH now provides design and master planning, construction management, 3D rendering and BIM, construction administration, site safety, preconstruction services, community engagement/planning and project management. BTH has the unique ability to guide your project from the initial stages of planning through construction completion. Understanding the value of their client’s input, this black-owned construction company creates opportunities for the owner to take a more active role in the construction process. At BTH, the success of your project is important to them. They strive to exceed your expectations in creativity, execution of details, and the bottom line. Their architectural background gives us a unique perspective: we strive to protect the architect’s design intent while overseeing construction. BTH is certified as an MBE and EDGE with the State of Ohio and as an MBE, WBE, SBE, and SLBE with the City of Cincinnati. About Bridget Harris Bridget has managed and designed many different projects. Those projects ranged from renovations of small scale buildings to the design and construction of multi-million dollar luxury buildings, complexes and master plans. She specializes in Construction Administration and acting as Owner’s Representative. Also, she provides oversight and direction for the general contractor and reviewing the quality of workmanship and compliance with the drawings. Most noteworthy, she has experience working with Integrated Project Delivery (IPD) multi-disciplinary teams working on multi-million dollar projects.
