Switch Lighting & Design is dedicated to the idea that light has a unique power to liven the senses and elevate the spirit. Lighting is a modern art that must be part of everyday living in our homes and public spaces. The lighting showroom in downtown Cincinnati was founded in 2008 by Drew Dearwester and Bertie Ray III. They now serve clients from around the region and in cities from New York to San Francisco. Be on the lookout for their new location coming to historic West 4th Street.
